U.S. Patent and Trademark Office PTOL-303 (Rev. 11-03)

Application No. 009/660,495

Continuation of 3. Applicant's reply has overcome the following rejection(s): 103(a) of claims 14-18, 20-23, 26, and 73-75 as these claims are now canceled.

Continuation of 5. does NOT place the application in condition for allowance because: In the remarks filed 12/22/04, Applicants' argue in substance that Himmel fails to teach or suggest collecting data that includes information indicating the proportion of content actually viewable to a respective user. In response to Applicants' argument, the Examiner respectfully submits that data indicating the proportion of content actually viewable to a user is represented in Himmel as "the visible time, and any other additional information required, for which the advertisement A 604 was present." Because content is displayed to a user over time, recording visible time for which an advertisement was present is a form of data indicating the proportion of content actually viewable. Therefore, the Examiner respectfully submits that Himmel teaches this feature.
